

Rubio Monocoat WoodPrep

A preparatory cleaner for cleaning all types of wood

The WoodPrep removes residues from sanding dust and minimises sanding errors. This preparatory cleaner will roughen up the wood fibers giving you a deeper and more even color. The product is ideal for the preparation of wood and provides a deep, intense and even Oil Plus 2C colour.

PRODUCT INFORMATION

› Specific characteristics

- Sanding errors and any small scratches are minimised
- Improves the intensity of the coloured Rubio Monocoat oil through better pigment absorption

› Technical characteristics

- Physical condition: Liquid
- Colour: Transparent
- Odour: Characteristic
- Flash point: > 100 °C
- Density: ≈ 1 kg/l

› Storage

The product can be stored for up to 12 months. Store in dry conditions and in the original packaging. Keep away from frost.

APPLICATION INFORMATION

› Instructions for use

STEP 1. Thoroughly vacuum the surface to be treated.

STEP 2. Distribute the WoodPrep evenly on the surface with a sponge. It is important that no untreated spots are left, because this would cause the surface to be cloudy or uneven afterwards.

STEP 3. Carefully wipe down with the Rubio Monocoat Microfiber Pad lengthwise in the direction of the wood grain, so that any little puddles get distributed evenly.

STEP 4. Let the treated surface dry completely, until it looks and feels evenly dry.

STEP 5. Apply the Rubio finishing of your choice.

> Disposal

Process empty containers according to local regulations.

> Packaging

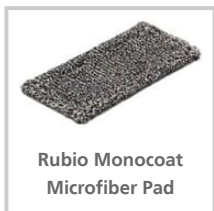

- Bottles 100 ml - 1L
- Jerrycan 5L - 10L

> Consumption

Maximum 10 m²/L

** This consumption is purely indicative and will depend on the type of wood, preparation and environmental conditions.*

> Tools

Check the packaging and the safety data sheet for more details.
